

Attached hereto is a marked-up-version of the changes made to the specification by the current amendment. The attached page is captioned "Version With Markings to Show Changes Made."

In the event there remains any impediment to entry of the amended priority claim which could be clarified by a telephone interview, please contact the undersigned attorney at your convenience.

Dated this 9 day of April 2001

Respectfully submitted,

Fraser D. Roy
Attorney for Applicant
Registration No. 45,666

VERSION WITH MARKINGS TO SHOW CHANGES MADE
IN THE SPECIFICATION:

The paragraph beginning on line 2 follows has been changed as follows:

[1. Field of the Invention.

This invention relates to exercise mechanisms and, more specifically, to systems and methods for providing a portable remote device capable of controlling the operation of the exercise mechanism while providing the exercising individual with motivational content.]

--2. Field of the Invention.

This invention relates to exercise mechanisms and, more specifically, to systems and methods for providing a portable remote device capable of controlling the operation of the exercise mechanism while providing the exercising individual with motivational content.--

The paragraph beginning on line 8 has been changed as follows:

[2. Related Patent Applications

This is a continuation-in-part application of co-pending patent application serial number 09/641,627, filed August 18, 2000 entitled "System For Interaction with Exercise Device" that is incorporated herein by reference. This application is also a continuation-in-part application of co-pending patent application serial number 09/496,560, filed August 18, 2000 entitled "Computer Systems and Methods For Interaction with Exercise Device" that is incorporated herein by reference. This is further a continuation-in-part application of co-pending patent application serial 09/641,220,

filed August 18, 2000 entitled "Systems and Methods For Interaction with Exercise Device" that is incorporated herein by reference.]

--1. Related Patent Applications

This is a continuation-in-part application of co-pending patent application serial number 09/641,627, filed August 18, 2000 entitled "System For Interaction with Exercise Device" that is incorporated herein by reference, of co-pending patent application serial number 09/641,600, filed August 18, 2000 entitled "Computer Systems and Methods For Interaction with Exercise Device" that is incorporated herein by reference, and of co-pending patent application serial number 09/641,220, filed August 18, 2000 entitled "Systems and Methods For Interaction with Exercise Device" that is incorporated herein by reference, each of which is a continuation-in-part application of co-pending patent application Serial No. 09/496,560, filed February 2, 2000 entitled "System and Method for Selective Adjustment of Exercise Apparatus" that is incorporated herein by reference, and of co-pending patent application serial number 09/349,608, filed July 8, 1999 entitled "Systems and Methods for Providing an Improved Exercise Device with Motivational Programming" that is incorporated herein by reference.--
